SUMMARY

I am a graduate student pursuing a Master in Sustainable Development, where I am cultivating expertise in science-policy interfaces, bottom-up governance approaches, knowledge decolonisation, and other topics relating to climate governance. I am a creative and analytical thinker with extensive experience in qualitative and quantitative research, policy analysis, science communications, and project management.

WORK EXPERIENCE

Research Assistant

06.2024 - present

Utrecht University, Utrecht, The Netherlands

Assisting a Professor by conducting a literature review and writing annotated bibliographies on urban heat stress, its lived experiences, and its interrelation with urban space and infrastructure.

Intern
